OUR MISSION

It is our aspiration to become the preferred supplier of aggregate products and support Wales in achieving "zero waste to landfill".

Our pledge is to establish lasting relationships with our customers by exceeding their expectations and gaining their trust through exceptional performance by every member of our team. We are committed to the environment and our stakeholders, everything we do is guided by these two principal elements.

At Derwen Aggregates we refuse to accept that business activities can have an impact on the environment. As our environmental concern is one of our guiding principles, we firmly believe that there is always a solution.

INERT WASTE DISPOSAL FACILITY

MUCKAWAY SERVICE

SKIP HIRE

Printed on 100% recycled paper

Design by: the graphics department Tel: 01792 851 578

INERT WASTE RESOURCE

Our inert resource facility is conveniently situated adjacent to the M4 and A465 close to Swansea and Neath and Port Talbot and accepts inert surplus material, providing a competitive, alternative to landfill.

MUCKAWAY SERVICE

Our resource offers an extensive muckaway service within a 40 mile radius, and is complimented by our own fleet of lorries and skips, presenting a fully comprehensive service.

As a Green Compass accredited site, customers are assured that their waste is being handled responsibly.

INNOVATION

Our innovative washing process, creates a selection of the finest quality, sustainable aggregates, comprising of:-

- General Building Sand
- Granular Sub- baseType 1
- Fine Grade Soil
- 3-5mm Aggregate
- 6mm Aggregates
- 10mm Aggregates
- 20mm Aggregates
- 40mm Aggregates
- General Soil
- Vibro Piling Material
- Bespoke Product
(incl.sustainable drainage)

All products are produced and tested in compliance with the WRAP quality protocol and conform to British and European standards and enable the end user to apply for BREEAM credits. They are available ex works or delivered direct.

OUR ENVIRONMENTAL CONTRIBUTION

Our service naturally embraces sustainability and corporate social responsibility. Our inert resource centre, allows us to provide a crucial alternative to landfill, with our plant recovering up to 100% of feedstock, creating premium sustainable products, whilst preserving our habitat.

RETURN LOADS/BACKHAULING

We encourage the disposal of inert waste and collection of sustainable aggregates in one vehicular action. Cost savings are maximised and carbon footprint minimised by utilising our one stop shop approach.

GREEN COMPASS

Derwen is one of the first companies in Wales to have earned this prestigious accreditation; working closely with Constructing Excellence in Wales to pioneer the scheme. The PAS402 is designed to provide customers with the confidence that waste is being disposed of in an environmentally sound and legal fashion, demonstrating compliance in quality, health and safety and the environment.
